International Bridge Petition

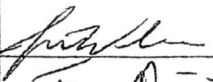

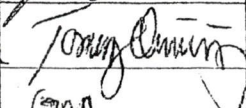

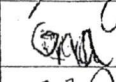

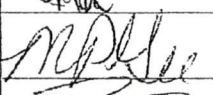

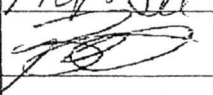

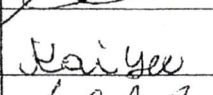

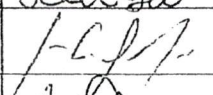

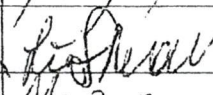

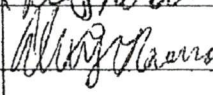

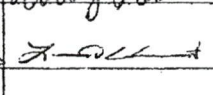

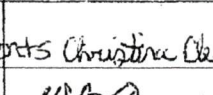

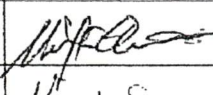

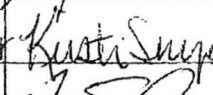

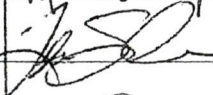

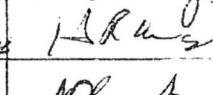

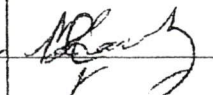

#18

The residents of Del Rio and Val Verde County demand that a new international bridge not be placed North of Del Rio between the City of Del Rio and Lake Amistad. A new international bridge North of the City of Del Rio places all the residents who live in between the City of Del Rio and Lake Amistad at a significant increased safety and security risk. In addition, the further development of international truck traffic North of Del Rio will reduce the valuation of the residential property of the residents of Val Verde County and effectively the economics of the City of Del Rio. An international bridge South of Del Rio is the only feasible option for Val Verde County and Del Rio.

International Bridge Petition

The residents of Del Rio and Val Verde County demand that a new international bridge not be placed North of Del Rio between the City of Del Rio and Lake Amistad. A new international bridge North of the City of Del Rio places all the residents who live in between the City of Del Rio and Lake Amistad at a significant increased safety and security risk. In addition, the further development of international truck traffic North of Del Rio will reduce the valuation of the residential property of the residents of Val Verde County and effectively the economics of the City of Del Rio. An international bridge South of Del Rio is the only feasible option for Val Verde County and Del Rio.

The residents of Del Rio and Val Verde County demand that a new international bridge not be placed North of Del Rio between the City of Del Rio and Lake Amistad. A new international bridge North of the City of Del Rio places all the residents who live in between the City of Del Rio and Lake Amistad at a significant increased safety and security risk. In addition, the further development of international truck traffic North of Del Rio will reduce the valuation of the residential property of the residents of Val Verde County and effectively the economics of the City of Del Rio. An international bridge South of Del Rio is the only feasible option for Val Verde County and Del Rio.

The residents of Del Rio and Val Verde County demand that a new international bridge not be placed North of Del Rio between the City of Del Rio and Lake Amistad. A new international bridge North of the City of Del Rio places all the residents who live in between the City of Del Rio and Lake Amistad at a significant increased safety and security risk. In addition, the further development of international truck traffic North of Del Rio will reduce the valuation of the residential property of the residents of Val Verde County and effectively the economics of the City of Del Rio. An international bridge South of Del Rio is the only feasible option for Val Verde County and Del Rio.

The residents of Del Rio and Val Verde County demand that a new international bridge not be placed North of Del Rio between the City of Del Rio and Lake Amistad. A new international bridge North of the City of Del Rio places all the residents who live in between the City of Del Rio and Lake Amistad at a significant increased safety and security risk. In addition, the further development of international truck traffic North of Del Rio will reduce the valuation of the residential property of the residents of Val Verde County and effectively the economics of the City of Del Rio. An international bridge South of Del Rio is the only feasible option for Val Verde County and Del Rio.

The residents of Del Rio and Val Verde County demand that a new international bridge not be placed North of Del Rio between the City of Del Rio and Lake Amistad. A new international bridge North of the City of Del Rio places all the residents who live in between the City of Del Rio and Lake Amistad at a significant increased safety and security risk. In addition, the further development of international truck traffic North of Del Rio will reduce the valuation of the residential property of the residents of Val Verde County and effectively the economics of the City of Del Rio. An international bridge South of Del Rio is the only feasible option for Val Verde County and Del Rio.

The residents of Del Rio and Val Verde County demand that a new international bridge not be placed North of Del Rio between the City of Del Rio and Lake Amistad. A new international bridge North of the City of Del Rio places all the residents who live in between the City of Del Rio and Lake Amistad at a significant increased safety and security risk. In addition, the further development of international truck traffic North of Del Rio will reduce the valuation of the residential property of the residents of Val Verde County and effectively the economics of the City of Del Rio. An international bridge South of Del Rio is the only feasible option for Val Verde County and Del Rio.
